Thakur Jagveer

Full-Stack Web Developer | MERN Stack | Tailwind CSS | MySQL & PostgreSQL | 2+ Years Experience
Vadodara, Gujarat, India

Summary

I'm a web developer with over 2 years of hands-on experience building full-stack applications using the MERN stack (MongoDB, Express.js, React, Node.js). I specialize in creating responsive, user-friendly interfaces with Tailwind CSS and have strong backend expertise working with both relational and non-relational databases, including MySQL, PostgreSQL, and Knex.js for query building. I bring a problem-solving mindset, a collaborative spirit, and a constant drive to learn and adapt in fast-paced environments. I'm looking to join a forward-thinking team where I can contribute my skills and continue growing as a full-stack developer.
